

# 20 Hands Duo Massage

Spa Grande at Grand Wailea launches its most lavish experience, the 20 Hands Duo Massage. Imagine, 100 fingers massaging you simultaneously from head-to-toe. An unforgettable two-and-a-half hour experience being offered in celebration of Spa Grande's 20th anniversary through September 4, 2012.

The 20-Hands Duo Massage starts with one hour of relaxation time in the termé hydrotherapy circuit featuring a Roman whirlpool hot tub and cold plunge, eucalyptus steam and redwood saunas, traditional Japanese furo bath, three cascading waterfall massages, Hawaiian tropical jet showers and a complimentary full-body exfoliation.

Following the termé, guests are provided robes and escorted to Spa Grande's suites where they are welcomed with a 30-minute foot soak, exfoliation and pressure-point foot massage. Guests are then asked to prepare for their full-body 20-Hand Massage by laying on the massage tables, face down on lavender-scented neck pillows. Once the guests are ready, therapists quietly arrive into the rooms to start the massage.

The massage begins with the 10 therapists connecting and harmonizing the energy of the room by bonding their hands, palm to palm. Once the energy is centered, they begin the "hula wave" on the entire body as therapists walk around the guests massaging the two bodies in synchronized harmony.

Following the "hula wave," therapists will split into two groups of five for each guest. One therapist is focused on the scalp, one on the lower left side of the body, one of the lower right side of the body and two on the upper portion of the body including back and torso. The Swedish massage technique is performed in perfect unison.

Guests are then ask to turn around and lay on their back, therapists continuing the massage with the two therapist that were focused on the upper portion of the body now providing greater attention to the arms and hands.

After the massage, the therapists quietly depart the suite allowing guests time to relax in the comfort of their suite. Guests are given the lavender-scented neck pillows for their personal use and enjoyment.
